Anno 2024-2025

VERIFICA VERSIONE JAVA

A screenshot of a Windows PowerShell terminal window. The title bar shows 'Windows PowerShell' with a close button and window controls. The terminal text includes the standard PowerShell startup message, a prompt to update PowerShell, and the execution of the 'java -version' command. The output shows the Java version as '1.8.0_431', which is underlined in red. Below this, it lists 'Java(TM) SE Runtime Environment (build 1.8.0_431-b10)' and 'Java HotSpot(TM) 64-Bit Server VM (build 25.431-b10, mixed mode)'. The prompt returns to 'PS C:\Users\pierl>'.

```
Windows PowerShell
Copyright (C) Microsoft Corporation. Tutti i diritti riservati.

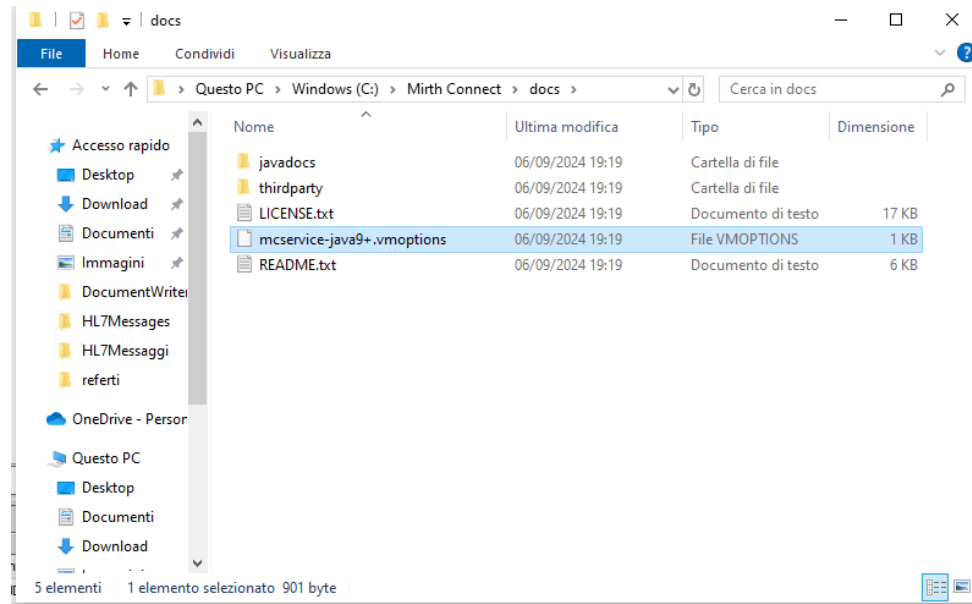

Installa la versione più recente di PowerShell per nuove funzionalità e mig

PS C:\Users\pierl> java -version
java version "1.8.0_431"
Java(TM) SE Runtime Environment (build 1.8.0_431-b10)
Java HotSpot(TM) 64-Bit Server VM (build 25.431-b10, mixed mode)
PS C:\Users\pierl>
```

- E' consigliabile la versione 1.8 (Java 8).
- Per le versioni superiori è necessario configurare alcune opzioni aggizionali (pag. 55 User Guide)

VERIFICA VERSIONE JAVA

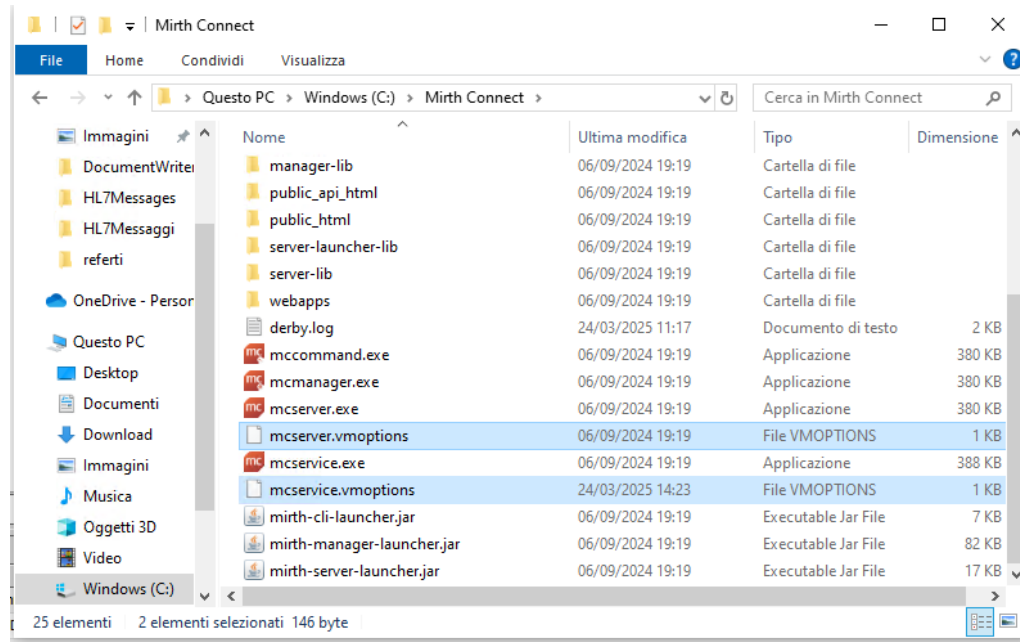

- Per le versioni superiori è necessario configurare alcune opzioni aggiuntive (pag. 55 User Guide)

Nella directory docs c'è il file mcservice-java9+.vmoptions. Questo file contiene delle opzioni extra della JVM che permettono a Mirth di essere eseguito con le versioni 9 e superiori.

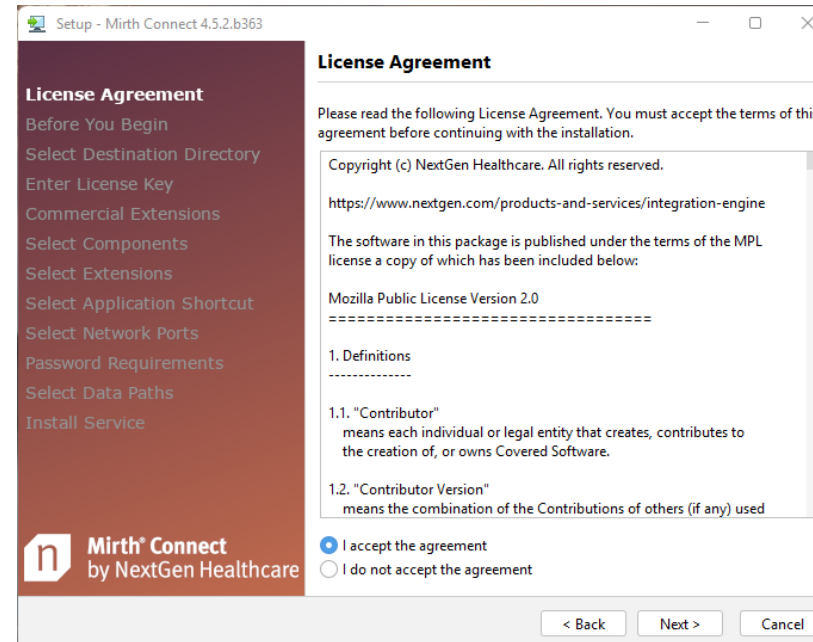

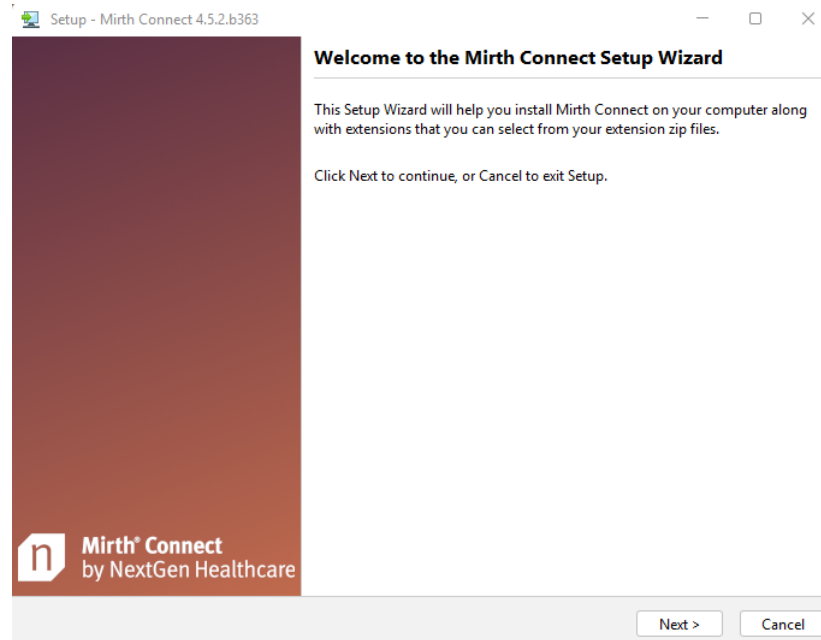

VERIFICA VERSIONE JAVA

- Per le versioni superiori è necessario configurare alcune opzioni aggiuntive (pag. 55 User Guide)

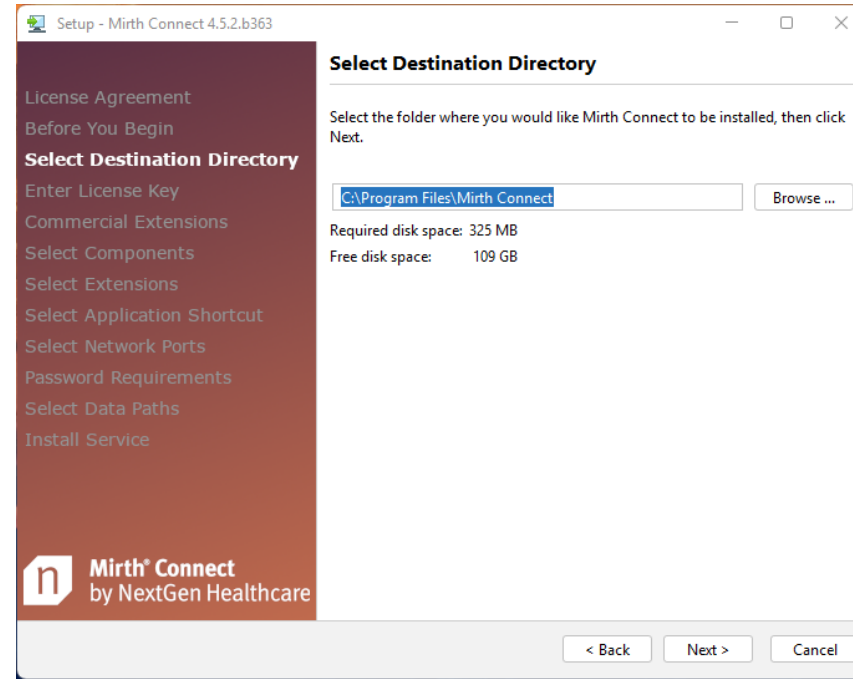

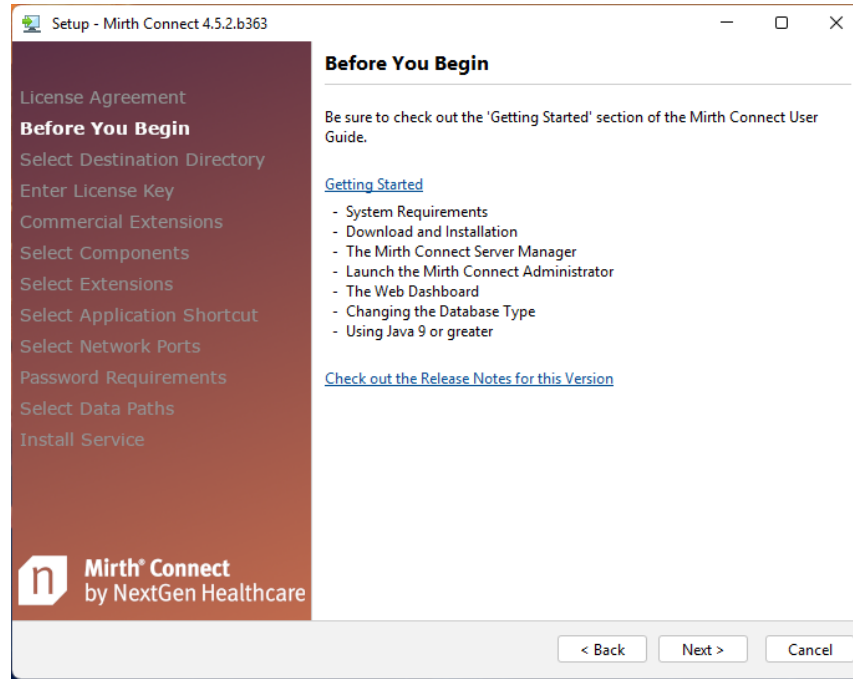

Copiare il contenuto del file mcservice-java9+.vmoptions nel file mcserver.vmoptions o mcservice.vmoptions in base al modo di utilizzo/esecuzione.
Se in fase di installazione viene installato il servizio modificare mcservice.vmoptions

Installazione Mirth

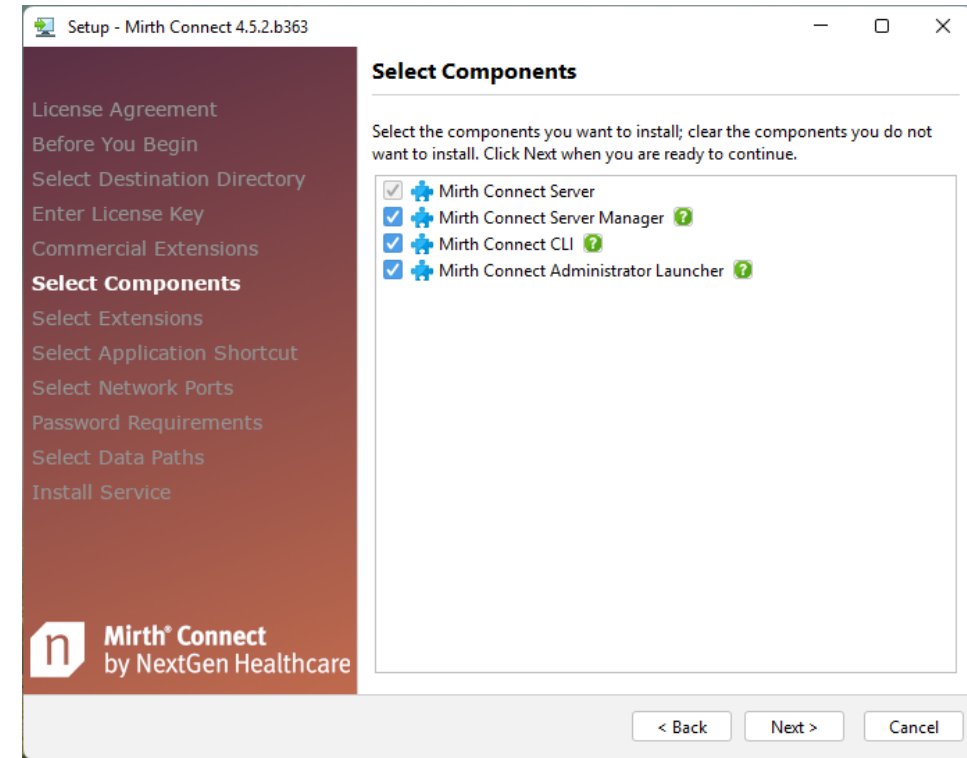

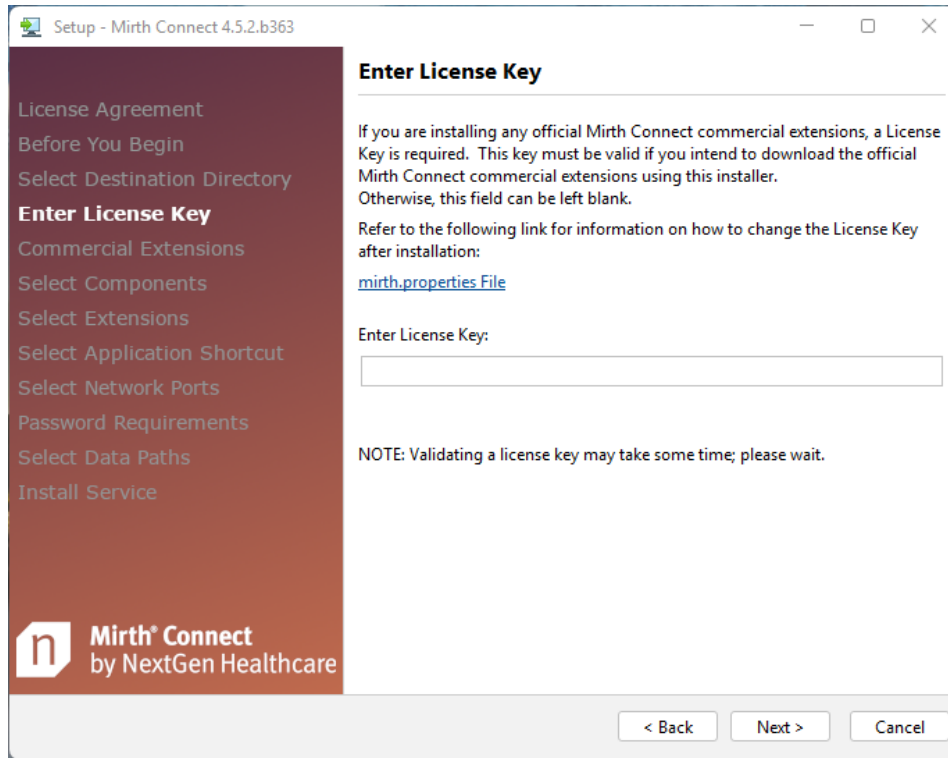

- Eseguire il pacchetto di installazione della versione adeguata per il proprio SO: generalmente per windows la 64bit (pag. 25 User Guide)

Installazione Mirth

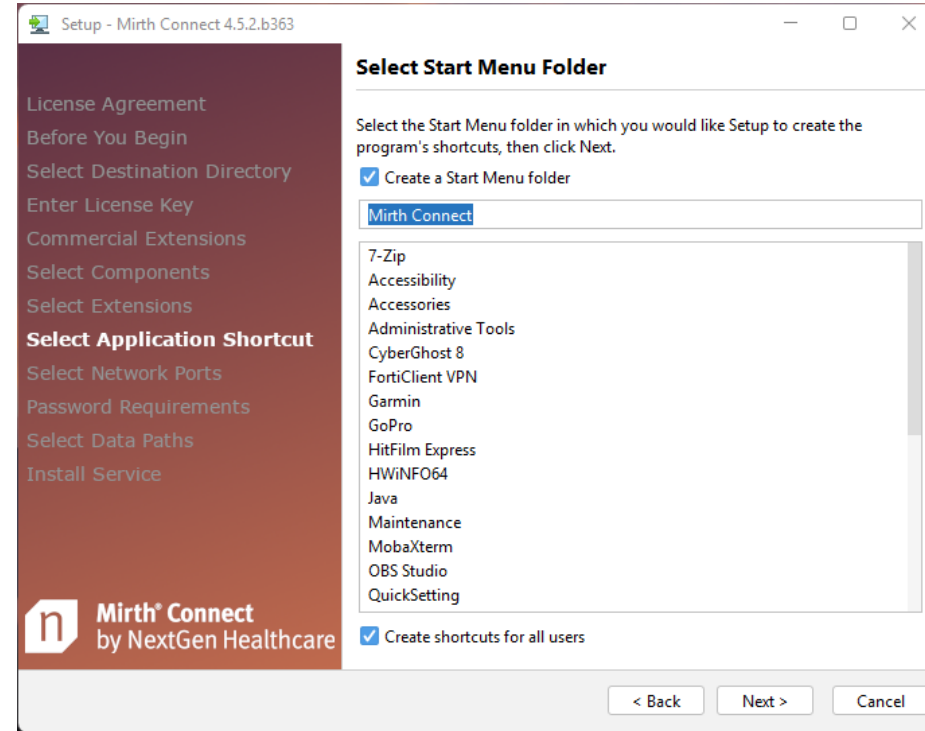

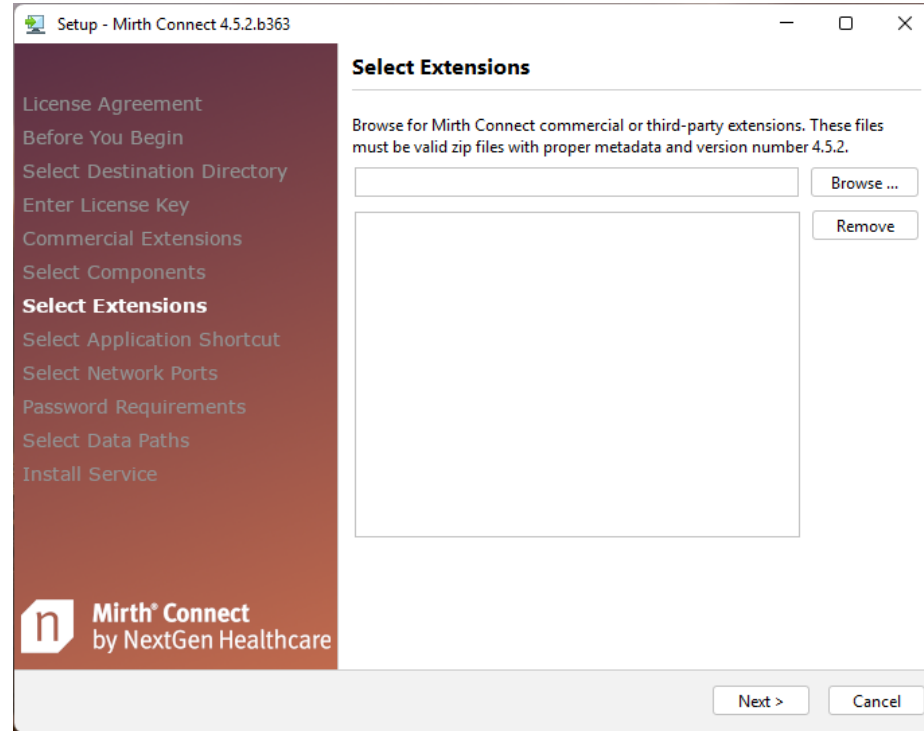

Installazione Mirth

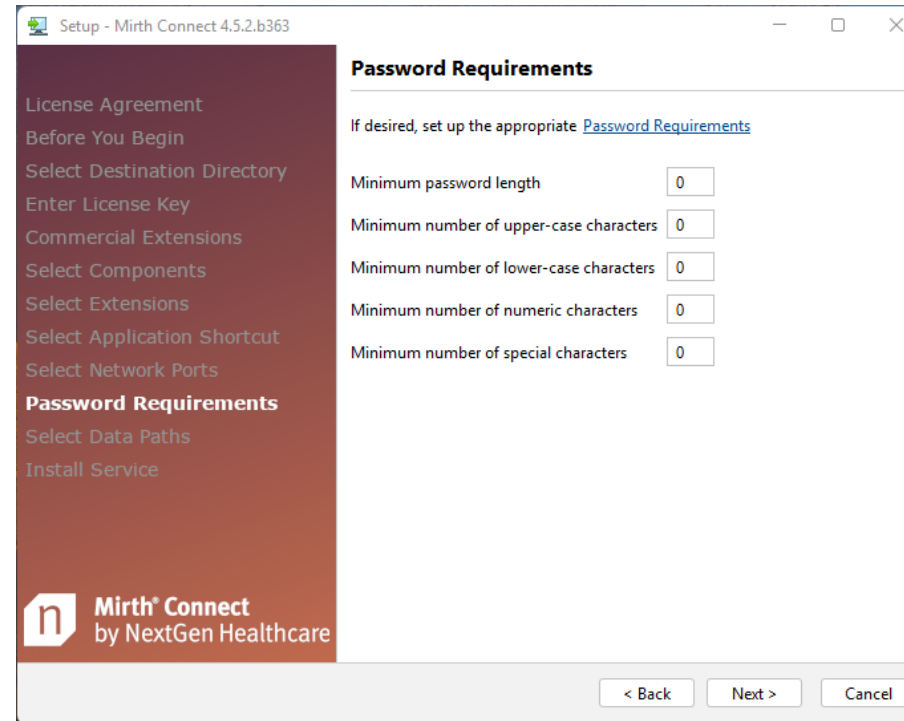

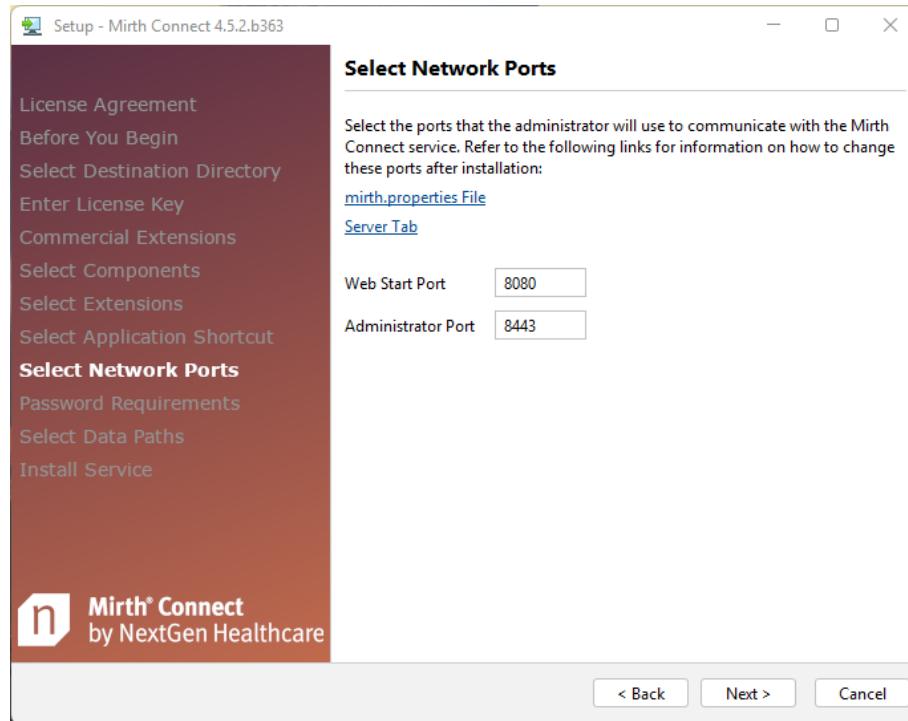

- Dove viene richiesta la licenza non mettere nulla e cliccare su next

Installazione Mirth

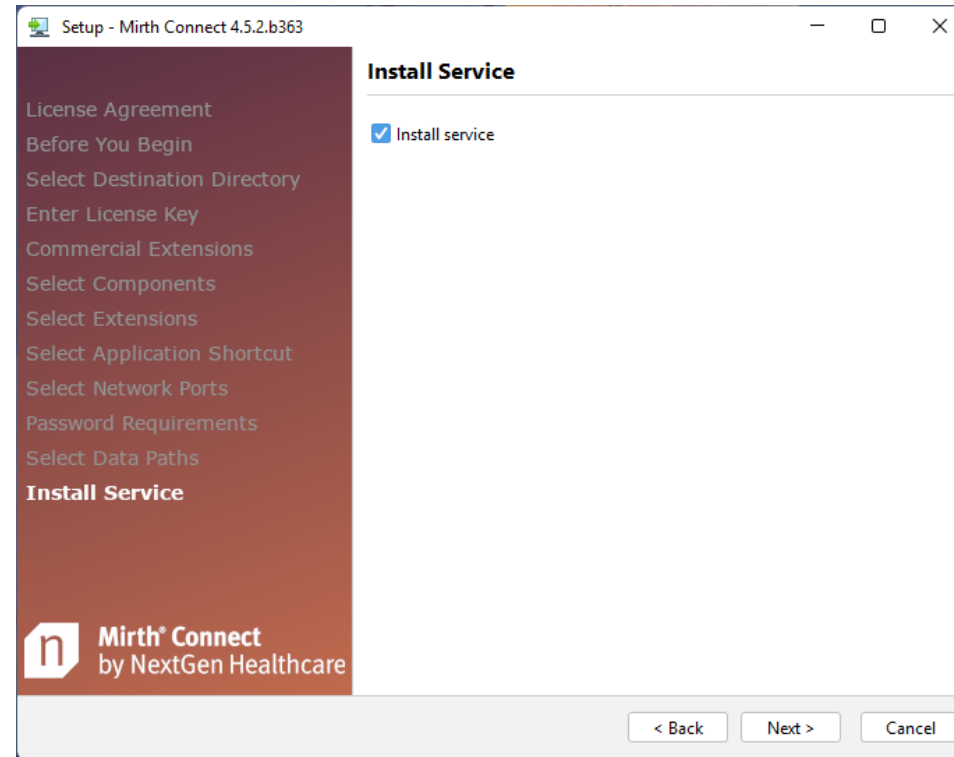

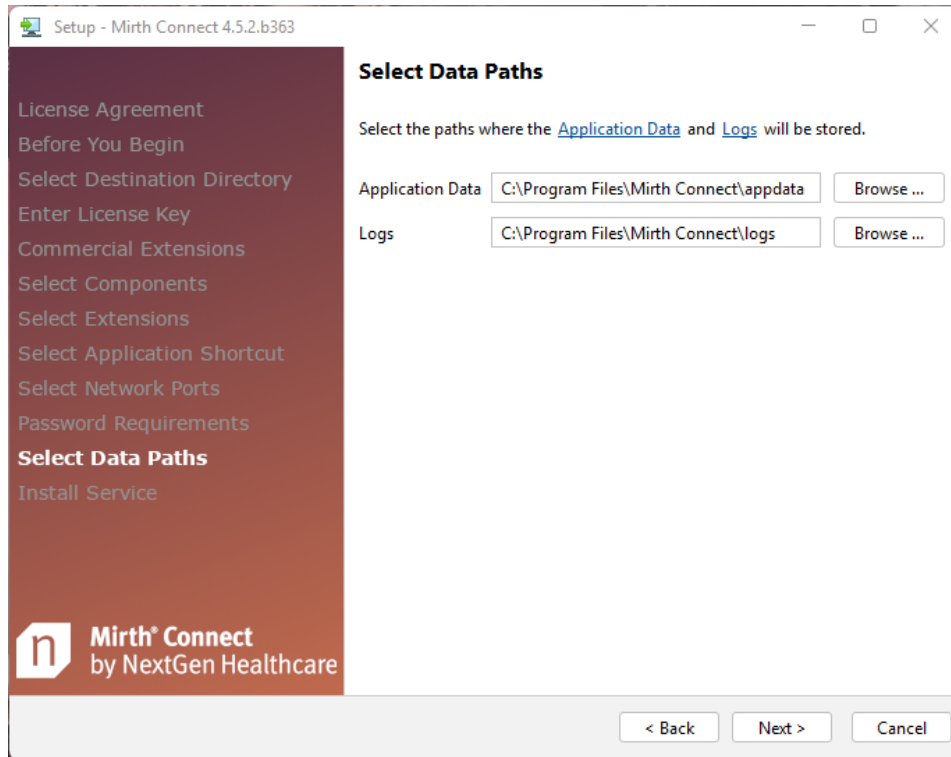

Installazione Mirth

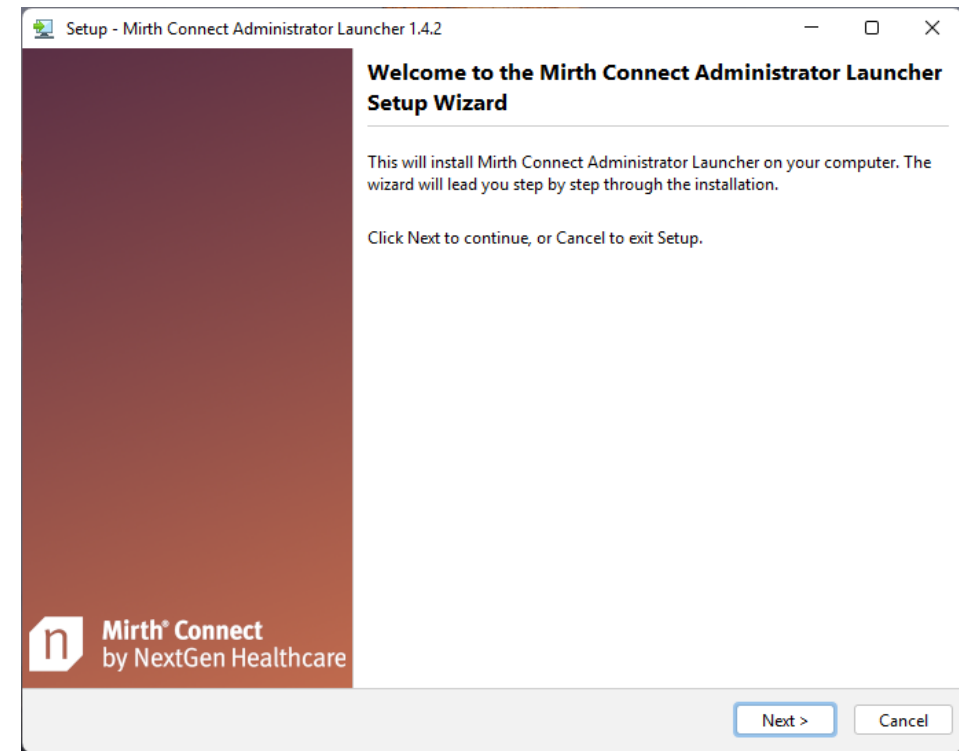

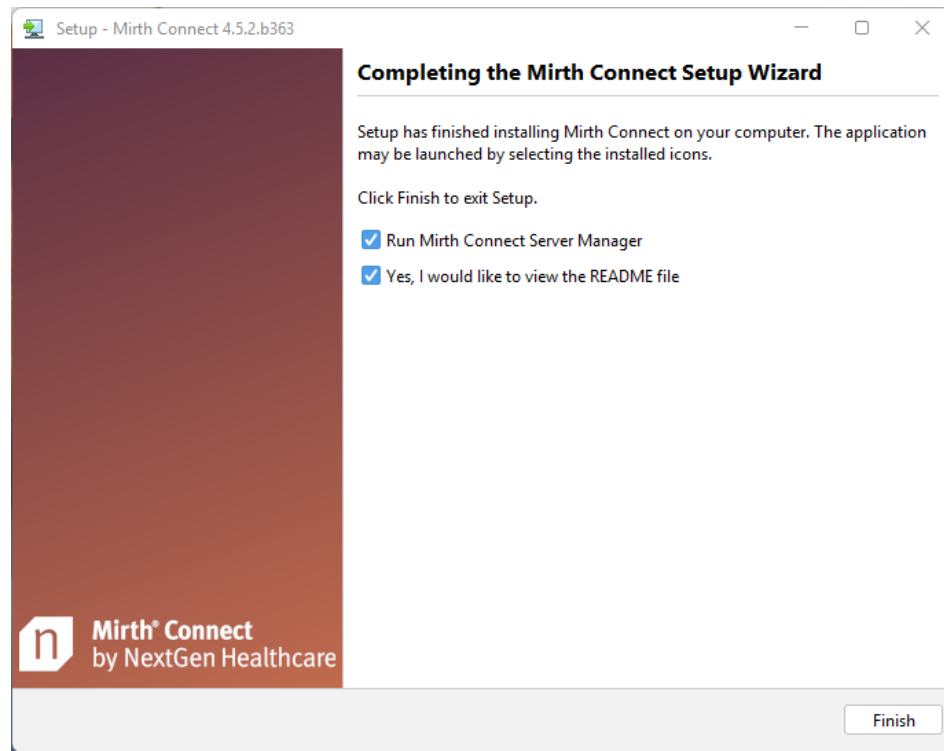

- Lasciare le porte proposte a meno che sul proprio pc non si abbia già qualche servizio impostato sulle porte 8080 e/o 8443
- Per le password lasciare le impostazioni di default

The image shows the Mirth Connect Server Manager application window. It has a title bar with the Mirth logo and the text "Mirth Connect Server Manager". Below the title bar is a blue header with the same text. The main area has four tabs: "Service", "Server", "Database", and "Info". The "Database" tab is selected. Inside the "Database" tab, there are four fields: "Type" (a dropdown menu set to "derby"), "URL" (a text box containing "jdbc:derby:\${dir.appdata}/mirthdb;create=true"), "Username" (an empty text box), and "Password" (an empty text box). At the bottom left, there is a button labeled "Administrator" with a key icon. At the bottom right, there are three buttons: "OK", "Cancel", and "Apply".

Installazione MySQL

The screenshot shows the MySQL Downloads page in a web browser. The browser's address bar displays the URL <https://www.mysql.com/downloads/>. The page features a dark blue header with a navigation bar containing buttons for "Try Free" and "Technical Guides". Below the header, the page is divided into two main columns. The left column contains sections for "MySQL Newsletter", "Free Webinars", and "Contact Sales". The right column contains sections for "MySQL Enterprise Edition" and "MySQL NDB Cluster CGE". At the bottom of the right column, a link for "MySQL Community (GPL) Downloads" is highlighted with a red box and a red arrow pointing to it from the right.

Installazione MySQL

The screenshot shows the MySQL Community Downloads page for the MySQL Installer 8.0.42. The page is titled "MySQL Community Downloads" and "MySQL Installer". It features a navigation bar with "General Availability (GA) Releases" and "Archives". A note states that MySQL 8.0 is the final series with MySQL Installer. Below the note, there are dropdown menus for "Select Version:" (8.0.42) and "Select Operating System:" (Microsoft Windows). A table lists two download options for Windows (x86, 32-bit), MSI Installer. The first option is for the web community version (2.1M), and the second option is for the community version (353.7M). A red box highlights the second option, and a red arrow points to it. At the bottom, a note suggests using MD5 checksums and GnuPG signatures to verify the integrity of the packages.

MySQL Community Downloads

MySQL Installer

General Availability (GA) Releases Archives

MySQL Installer 8.0.42

Note: MySQL 8.0 is the final series with MySQL Installer. As of MySQL 8.1, use a MySQL product's MSI or Zip archive for installation. MySQL Server 8.1 and higher also bundle MySQL Configurator, a tool that helps configure MySQL Server.

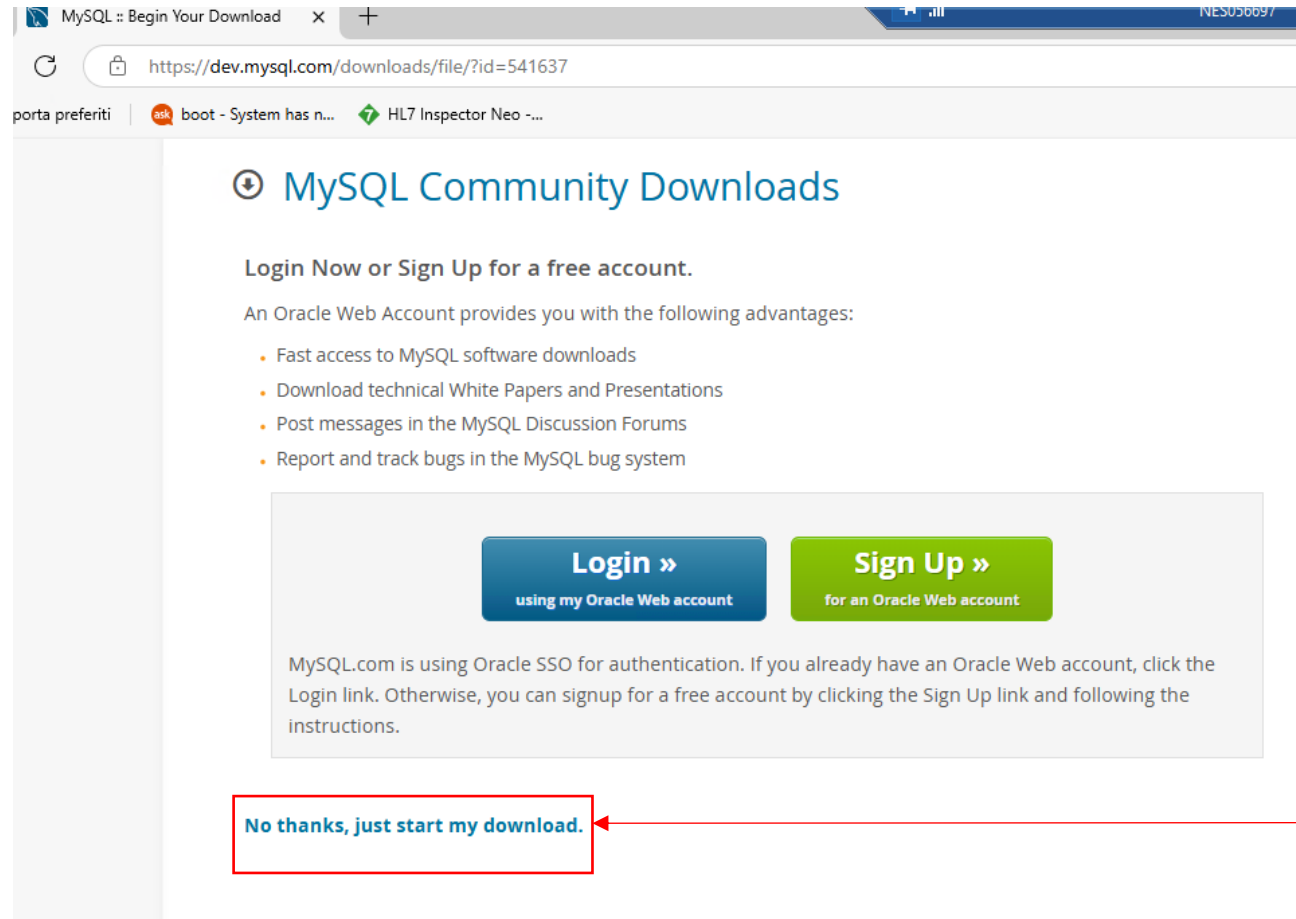

Select Version:
8.0.42

Select Operating System:
Microsoft Windows

Windows (x86, 32-bit), MSI Installer (mysql-installer-web-community-8.0.42.0.msi)	8.0.42	2.1M	Download
Windows (x86, 32-bit), MSI Installer (mysql-installer-community-8.0.42.0.msi)	8.0.42	353.7M	Download

We suggest that you use the [MD5 checksums](#) and [GnuPG signatures](#) to verify the integrity of the packages you download.

Installazione MySQL

Installazione MySQL

The screenshot shows the 'MySQL Installer' window for 'MySQL Server 8.0.42'. The left sidebar contains a list of configuration steps: 'Type and Networking' (selected), 'Authentication Method', 'Accounts and Roles', 'Windows Service', 'Server File Permissions', and 'Apply Configuration'. The main area is titled 'Type and Networking' and contains the following sections:

- Server Configuration Type**: A text box labeled 'Config Type:' with a dropdown menu showing 'Development Computer'.
- Connectivity**: A text box with the instruction 'Use the following controls to select how you would like to connect to this server.' Below it are three options:
 - ☒ TCP/IP: Port: 3306, X Protocol Port: 33060
 - ☒ Open Windows Firewall ports for network access
 - ☐ Named Pipe: Pipe Name: MYSQL
 - ☐ Shared Memory: Memory Name: MYSQL
- Advanced Configuration**: A text box with the instruction 'Select the check box below to get additional configuration pages where you can set advanced and logging options for this server instance.' Below it is a checkbox labeled 'Show Advanced and Logging Options' which is currently unchecked.

At the bottom right of the window are two buttons: 'Next >' and 'Cancel'.

Installazione MySQL

Installazione MySQL

The image displays two sequential windows of the MySQL Installer 8.0.42 setup wizard.

Left Window: Windows Service

- MySQL. Installer**
MySQL Server 8.0.42
- Navigation:** Type and Networking, Authentication Method, Accounts and Roles, **Windows Service**, Server File Permissions, Apply Configuration.
- Windows Service**
 - ☒ **Configure MySQL Server as a Windows Service**
 - Windows Service Details**

Please specify a Windows Service name to be used for this MySQL Server instance. A unique name is required for each instance.

Windows Service Name:

☒ **Start the MySQL Server at System Startup**
 - Run Windows Service as ...**

The MySQL Server needs to run under a given user account. Based on the security requirements of your system you need to pick one of the options below.

 - ☒ **Standard System Account**
Recommended for most scenarios.
 - ☐ **Custom User**
An existing user account can be selected for advanced scenarios.
- Buttons:** < Back, Next >, Cancel

Right Window: Server File Permissions

- MySQL. Installer**
MySQL Server 8.0.42
- Navigation:** Type and Networking, Authentication Method, Accounts and Roles, Windows Service, **Server File Permissions**, Apply Configuration.
- Server File Permissions**

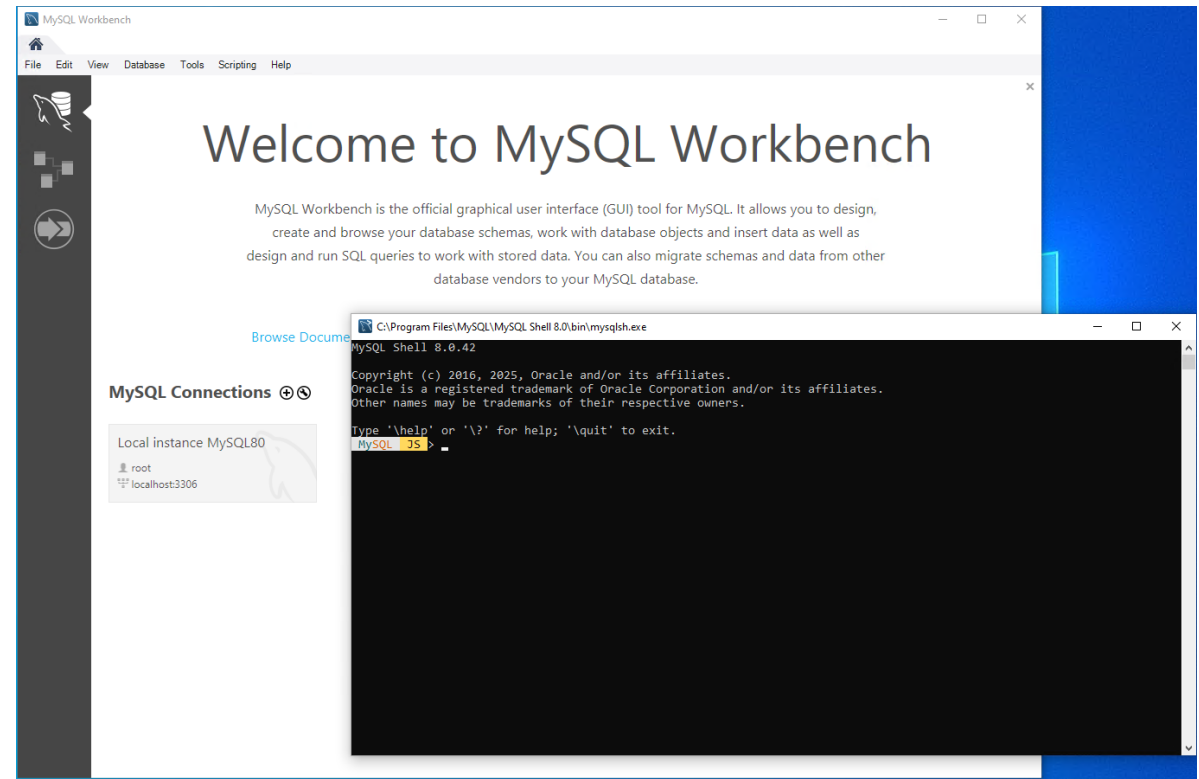

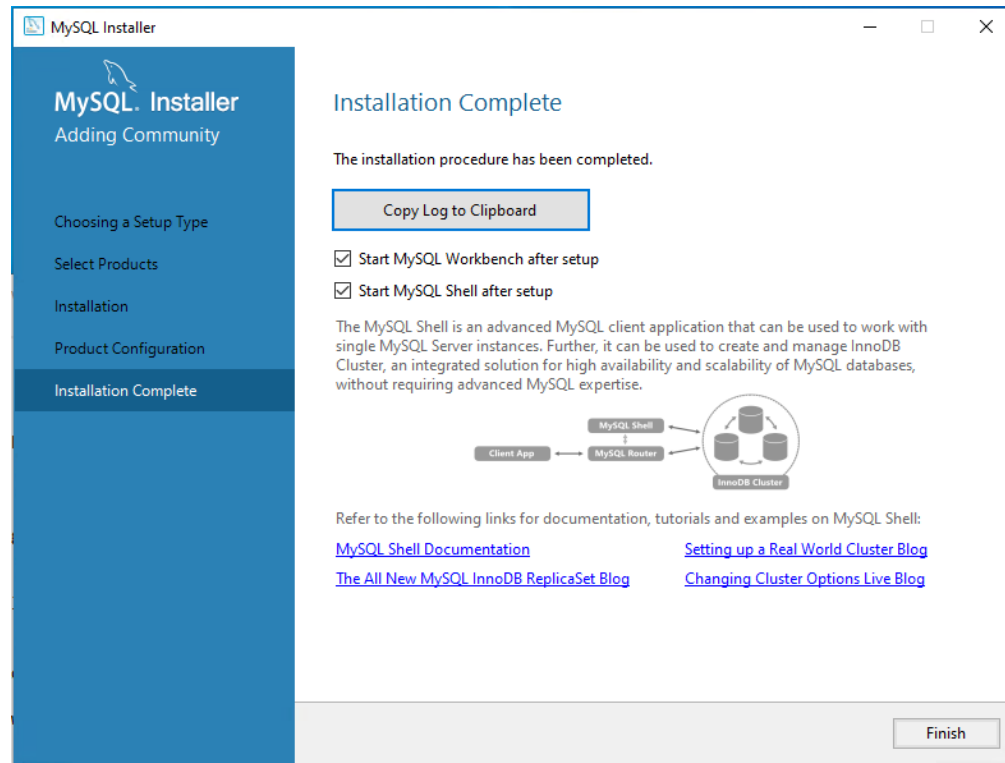

MySQL Installer can secure the server's data directory by updating the permissions of files and folders located at:

C:\ProgramData\MySQL\MySQL Server 8.0\Data

Do you want MySQL Installer to update the server file permissions for you?

 - ☒ **Yes, grant full access to the user running the Windows Service (if applicable) and the administrators group only. Other users and groups will not have access.**
 - ☐ Yes, but let me review and configure the level of access.
 - ☐ No, I will manage the permissions after the server configuration.
- Buttons:** < Back, Next >, Cancel
